## 3. Exemptions, alternative solutions or special restrictions for the swimming pool

If it is known that an exemption, alternative solution or restriction is applicable to the swimming pool please state this. For example, a restriction may require a permanent body of water that is part of the swimming pool barrier to be maintained to a minimum depth. This will help provide pool owners with a concise and practical explanation of the exemption, alternative solution or restriction. It will also help to ensure the ongoing use of the pool and any future modifications do not compromise compliance with the pool safety standard.

No exemptions apply

No alternative solutions apply

No special restrictions apply

## 4. Shared pool or non-shared pool

Shared pool

Non-shared pool

## 5. Pool safety certificate expiry

Effective date:

16 Dec 2016

Expiry date:

### Other important information that could help save a young child's life

It is the pool owner's responsibility to ensure that the pool (including the barriers for the pool) is properly maintained at all times to comply with the pool safety standard under the Building Act 1975. Gates and doors giving access to the pool must always be kept securely closed while they are not in use. High penalties apply for noncompliance. It is essential that parents and carers carefully supervise young children around swimming pools at all times. Parents should also consider beginning swimming lessons for their young children from an early age. Please visit [www.dip.qld.gov.au/poolsafety](http://www.dip.qld.gov.au/poolsafety) for further information about swimming pool safety. This pool safety certificate does not certify that a building development approval has been given for the pool or the barriers for the pool. You can contact your local government to ensure this approval is in place.

This is a public document and the information in this form will be made available to the public.
